## Goals and Scope

Contemporary Issues in Economy is a series of conference proceedings dedicated to economics, which is published by the Institute of Economic Research (Poland) in cooperation with Polish Economic Society. The publication is the result of close scientific cooperation with international scientific partners: Brno University of Technology, Faculty of Business and Management (Czech Republic), Hungarian Academy of Sciences, Centre for Economic and Regional Studies, Institute of World Economics (Hungary), Pablo de Olavide University, Department of Economics, Quantitative Methods and Economic History (Spain) and University of Economics in Bratislava, Faculty of Economic Informatics (Slovakia) are international scientific partners of the proceedings. The publication constitutes a platform for exchange of views of the scientific community, which concentrates on the four fields:

- ✓ economics,
- ✓ finance,
- ✓ quantitative methods,
- ✓ entrepreneurship and management.
